

Field Day

Cover Crops at the Metropolitan Water Reclamation District of Greater Chicago's Agricultural Nutrient Loss Reduction Demonstration Site

Friday, November 17, 1-3:30 p.m.

15779 East County Rd. 5, Cuba, IL

(Located between Cuba and Canton; look for five concrete silos)

- Tour demonstration fields and cover crop trials of interseeding at V6 and aerially seeding
- Learn how cover crops improve soil health, reduce corn fertilizer needs and save money
- Discuss with cover crop specialists on how to establish cover crops on your farm

Speakers include: **Pete Fandel**, cover crop specialist and professor of agriculture at Illinois Central College; **Dean Oswald**, cover crops specialist with the Illinois Council on Best Management Practices; and MWRD's environmental soil scientists.
