

2023 Nutrient Stewardship *field day*

THUR **AUG 24TH**
5:00 P.M. – 7:30 P.M.
RAIN OR SHINE

As part of their ongoing Nutrient Stewardship project, Wayne County Farm Bureau (CFB) is continuing to sponsor a Nutrient Loss Inhibitor Demonstration (NLID) plot at Fred Blessing's farm, to demonstrate fertilizer efficiency and economics. This work takes place through an active partnership with Wabash Valley Service Company. The 2023 field day will focus on updating attendees of the ongoing project and will include a booklet of results.

AGENDA:

Doug Anderson | Manager, Wayne County Farm Bureau | Welcome and emcee

Amelia Gooding-Cheek | Associate Director of Natural Resource Policy, IFB | IFB Policy Update & Nutrient Stewardship Efforts

Mike Wilson | Specialty Products Marketing Coordinator and CCA, Wabash Valley Service Company | NLID plot plan and details

Keynote:
Dr. Connor Sible

A keynote presentation will be provided by Dr. Connor Sible. Dr. Sible is advised by Dr. Fred Below in the Crop Physiology Lab at U of I. His research program focuses on high yield corn and soybean systems. During the meeting, he will provide growers with information about optimizing Nutrient Use Efficiency (NUE) without impacting yield.

John Pike | Agronomist, Pike Ag. LLC | NREC Research Project

KEYNOTE SPEAKER

Connor Sible, Ph.D. | Postdoctoral Research Associate, Crop Physiology Lab | The Intersection of N Management and High Yields: Optimizing NUE without Sacrificing Yield

LOCATION:

Fred Blessing Farm, 3 Miles North of Fairfield on Enterprise Road and left at the NLID sign (County Road 1220N)

RSVP:

By Thursday, August 17 by calling Wayne CFB at (618) 842-3342

DETAILS:

Ribeye dinner will be served
